DESCRIPTION/OPTIONS: This is a restoration project - intended to be completed as a GTO CLONE - NOT a true GTO. Most of the parts that came off for the body work that has been done are available and they can go with car, if desired. New Painless wiring harness that was never installed goes with car. Brakes were upgraded, ignition components, transmission rebuilt, B & M 80416 torque converter, and some engine work done- notes found show Comp Cams CL512323 cam kit; 1452-16 roller rockers; 28140 Hedman Headers; Work was done several years ago and vehicle has sat, in inside storage - starts and runs. Vehicle as is, no inspection, no warranty; I can provide additional specific pictures upon request if desired by a prospective buyer. Any and all transportation costs are buyer's responsibility.
